

Golden Age Developments Presents:

For the Dorset Coast Route

Dorchester T9 Diagram (1952)

By GAD Leonard

Pack Details

This pack covers Dorchester's T9 diagram circa 1952.

At this time Dorchester MPD still sent out one of its own T9s for its most important train: The 1550 Weymouth-Waterloo. Sometimes loaded to six coaches it proved too much for these engines in the end and they were replaced by Lord Nelsons in 1954.

Today an inspector has come to Dorchester and wishes to ride with you on this train, to understand how these elderly engines have been coping, can you prove to him that they are still up to the task?

Part I - Run LE down to Weymouth and turn your engine for the first train

Part II - Take the 1550 ex-Weymouth as far as Bournemouth Central

Part III - Run onto Bournemouth MPD and service your engine

Part IV - Come off Bournemouth MPD and collect your return train

Part V - Take the 1912 ex-Bournemouth all the way down to Weymouth

Part VI - Run LE back up to Dorchester to end the day's work

N.B. There is a temporary speed restriction in place at Holes Bay Junction, Since Sunday track maintenance work has overrun into Monday.
