

# Golden Age Developments Presents:

For the Caledonia Works A4

1948 Exchange Trials (Southern Region)

By GAD Leonard

## Pack Details

This pack contains 4 scenarios covering the Up & Down Atlantic Coast expresses between Yeovil Junction and Exeter:

11:00 Waterloo - Exeter Central

12:30 Exeter Central - Waterloo

Top Shed had their favourite A4s to put forward for the trial; the Eastern Region management selected three Kylchap exhaust fitted A4s instead. Given the host of reliability issues which plagued E22 and 60033 throughout the trial period, we may wonder in hindsight whether this was the correct choice.

Note that part I of the pack has a rolling start at Yeovil Jn, so you will need to release the brakes and start driving whilst the train is still in motion.

Note also that my loco rosters, carriage workings, and timetables are mostly from the early 50s, so in some cases they may differ slightly from their 1948 equivalent.

The pack is formed as follows:

Part I - Passenger Run Yeovil Jn - Exeter Central

Part II - LE move to Exmouth Junction & Servicing

Part III - LE from MPD to Exeter Central on the following day

Part IV - Passenger Run Exeter Central - Yeovil Jn

Estimated total Playtime: 3 hours
