

Golden Age Developments Presents:

For the Caledonia Works 700

Swanage Goods Turn (1959)

By GAD Leonard

Pack Details

This pack contains 5 scenarios covering the first half of the Swanage goods diagram.

After the closure of the Hamworthy sub-shed in the early fifties, the diagram was taken over by Bournemouth, working a morning Poole-Swanage freight, a Wareham-Corfe Castle clay train, and the return Wareham-Poole freight. In later years the service would serve Swanage and Wool on alternate weekdays.

Whilst this turn was officially diagrammed for Q class locos as early as 1954, 700s were still seen working these trains as late as 1960.

These scenarios cover the Swanage Men's turn which covered the morning Swanage-Wareham return freight, shunting at Wareham and Corfe Castle, and the Wareham-Corfe Castle clay empties, after which the crew returned to Swanage "on the cushions".

The pack is formed as follows:

- Part I - LE from shed + Shunting
- Part II - Shunting
- Part III - Swanage-Corfe freight
- Part IV - Corfe-wareham freight
- Part V - Shunting + Wareham-Corfe freight

Estimated total Playtime: 3 hours
